EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eric Jensen on 01/11/2006.

The application has been amended as follows:

In claim 3, line 5, "transparent layer" has been changed to –transparent protection layer--.

Allowable Subject Matter

1. Claims 3-12, 14-19 and 22 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. As to claim 3, the prior arts of record do not anticipate or render obvious to one skilled in the art a layered structure comprising a transparent organic layer having a planarized transparent organic surface and a hole, a first transparent protection layer overlying the planarized transparent organic surface only except within the hole and a second transparent layer, which has an electrical conductivity and extends over the transparent protection layer and on a bottom and side walls of the hole wherein the first and second transparent layers are made of same material.
4. As to claim 12, the prior arts of record do not anticipate or render obvious to one skilled in the art a transparent liquid crystal display comprising a transparent organic layer having a planarized transparent organic surface and a hole, a transparent protection layer covering the planarized transparent organic surface only except within the hole and a transparent pixel electrode extending adjacent to the transparent protection layer and on a bottom and side walls of the hole wherein the transparent protection layer and the transparent pixel electrode are made of same material.

The newly cited reference also alone or in combination with any other prior art references fail to teach or suggest the claimed layered structure wherein the first transparent protection layer and the second transparent layer having electrical conductivity are made of same material including all other recitations.

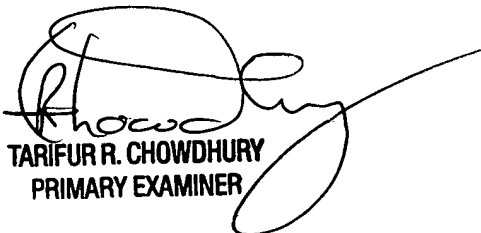

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tarifur R. Chowdhury whose telephone number is (571) 272-2287. The examiner can normally be reached on M-Th (6:30-5:00) Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on (571) 272-2293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
